

My fellow Americans --- Good Morning.

This is Gordon Nordquist. Some of you may remember me as the former host of Sunday Morning Line. But it has been some time ago. My media background was in journalism. Primarily newspapers.

I have not come before this microphone to entertain you this morning....but to encourage you to be more vigilant in the cause of freedom! This appeal is to -- Republicans! This appeal is to --Democrats! This appeal is to -- conservatives! And this appeal is to you Party Cool Aid Drinking Liberals out there-- who have been drinking the Party Cool Aid so long now-- that your mind is poisoned beyond reason). Yes, you heard what I said: Your minds are poisoned beyond reason!

And it is people like you -- who's minds have been poisoned beyond reason -- who control the United State Congress. The House and the United States Senate. And yes --- the very coveted seat of our American government -- the White House itself. *What happens to America now is on your hands.*

Wake up America! And Thank God many of you are waking up to what has happened -- and to what is being planned by our government to change our beloved America? But far too many of you do not yet understand that our nation has been under attack from within for decades. And in November of 2008 -- *uninformed Party Line* -- *Cool Aid drinking Americans* by the millions went to the polls and handed this nation over to the leadership of a dangerous man. A dangerous man who surrounds himself with very dangerous people -- and who for the last 7 months has held this nation under siege -- like never before.

Barack Obama is a vowed Marxist. And in my opinion an outright fraud. But a fraud with unmatched power and a plan to destroy the machinery of America's greatness.

American Capitalism is under attack. American Industry is under government siege. Cap and Trade is about to bring American Commerce to its knees. And our heating bills and the price of gasoline will choke off our ability to function as a nation -- *and even as individuals*. We are being told how much we can be paid -- and individuals who are productive and succeed are being ridiculed.

Unemployment has approached 10 percent -- even with the figures being cooked by the Obama Administration. *And it is going to get worse* -- not better. This government has done nothing that will create sustaining new jobs and business renewal.

Government interference and bail outs -- and take-over of businesses that deserved to fail -- *have cost Americans 24 trillion dollars*. That's \$80,000 dollars of new debt for every American. And that doesn't include the \$787 billion economic stimulus package.

And lets not forget what this undeniably Socialist President and his minions have outlined for the best Health Care System in the world. *ObamaCare* -- if passed by the Democratic Party -- will raise havoc upon this nation and its people far greater than any enemy without could have accomplished. Millions upon millions of health related jobs will be lost. Seniors will be victimized -- and perhaps eliminated.

All of this so called "HOPE and CHANGE" is going on right under our nose. Every day our personal freedoms are being infringed upon. And the people who have openly deplored our military for years -- are now in command. Those who protected us after 911 -- are under personal attack by the most dangerous leadership that has every ruled in American History.

So I say to you this morning --- *wake up America!* And when I say America -- I mean Americans. Democrats and Republicans. Liberals and Conservatives. Independents. Americans of every race and color.

For it is America -- your country. My country that has fallen into the hands of those who would seek to destroy the very Constitution that is the life blood of this nation. For you see that is exactly what Chairman Barack Hussein Obama meant when he said "he intends to fundamentally change America"

Everything I have mentioned thus far has happened. Each day brings a new wave of Obama (in your face) intrusion upon our lives. This great nation is now under siege by the most radical socialist minds that function side by side with the likes of Hugo Chavez of Venezuela and Fidel Castro in Cuba.

Gordon -- this can't be true you say. How did this happen?? Why wasn't something done???

And that is the question that each of us must answer: *How did this happen -- and why wasn't something done to stop it from happening?*

You tell me. Maybe the answer lies in these questions:

* Why wasn't something done years ago when Public Education and our Public Schools and Universities were taken over by the same poisonous, liberal Democratic Party "mind set" that now governs this nation?

* Why have parents sat back and allowed the NEA Teachers Union (a tentacle of the Democratic Party) to re-write American History and set the standards for our children's education? *Why did we allow liberalism to shape the minds of our children??*

* Why did decent God-fearing Americans or so called Christians -- remain silent while the horrors of Abortion were introduced into the rule of law for a nation who for centuries before proclaimed --- *LIFE and the pursuit of happiness to every living soul -- as a Constitutional right???* You tell me -- my American listeners -- why have we allowed this sick, and twisted, Democratic Party scourge to exist???

* Why did we sleep through the horrors of Waco -- when our Government (for the first time) sent tanks, and flame throwers into a compound of innocent American women and children in Texas -- and totally vaporized over 70 of them where they lived and breathed on American soil? When the very people who committed this atrocity -- took a sworn oath of Office to protect them -- and every other American -- as prescribed by the Constitution ???

* Why have we allowed our politicians (Democrat and Republicans) to steal our pay -- even before it reaches our hands? Do we not realize what freedom and rights have already being stripped away by this outright thievery by our government?? Do you even realize -- -- that you now work from Jan. 1 until August 15th -- just to pay your tax obligations???? And we are about to be taxed into obama oblivion!

* And why have we remained silent, America -- while ruling Democrats have skillfully removed the debate of our individual fate as American citizens from the floor of the House and the Senate -- into the hands of a few "hand picked" liberal Judges in black robes -- sitting on the Supreme Court. *Why do we sit in silence and continue to call this representative government???*

* And where was our conscience America -- when we failed to impeach a President of the United States who brought total disgrace to the office -- and swung open the doors of moral decay across this nation??? Did we not understand that our handling of this breach of trust would have lasting consequences?? Lies and cheating quickly became "politically correct" at an the expense of all that is TRUTH.

* And why did we allow ourselves to become a citizenry of people dependent on government for our well being -- instead of our own God-given initiative? Look at New Orleans and Katrina. The epitome of government raised dependents. People who didn't even have the initiative to act in their own well being. They would drown waiting for the government to save them. When campaigning for the Missouri Senate the most demoralizing people to me -- were the Senior Citizens of this state who's only interest was what the Democrats were going to give them.

You tell me America...how did this happen?? How did an avowed Marxist and Socialism capture the power and authority of the United States government with out a shot being fired??? Can you imagine how those brave Americans who fought and died for this country must feel? They have been betrayed by the very sons and daughters they fought to protect.

So you see my countryman -- we have all been drinking the Party Cool Aid for a long, long time.

But the Democratic Party and Barack Hussein Obama introduced a new wine to unsuspecting Americans in 2008. A new wine -- that would replace the Party Cool Aid. An intoxicating cup of promises was being offered by the one the Democrats and media lauded as "The Great Messiah". Our new Islamic President and his promised miracles were much more deserving of our admiration than Christ himself.

And so intoxicated were the Democrats and the mainstream media with their new found Messiah and his intoxicating and sparkling political wine -- that they neglected to check the label. What were the intoxicating ingredients that caused news anchors' legs to tingle -- and ABC and NBC news anchors to literally wet their pants once smitten with Obama's new wine of HOPE and CHANGE??

Had they checked the label -- they might have discovered that the man they elected to be the American President, was an avowed Muslim. A Marxist. They also might have discover that Barack Obama would be hard pressed to prove that he is an American born citizen. Something that is a Constitutional requirement to be President of the United States. (By every indication, it appears that our American President was born in Kenya -- not America)

And you Democrats -- was it not your responsibility to know if your candidate had ties with former terrorists, and sat for 20-years under an American hating pastor, and was someone who had radical opinions and ideas about everything that made this country America???

Had you been drinking the Party Cool Aid for so long that your mind was total mush when you went to the polls? And you Republicans -- and most of all you Sen. John McCain -- why were you the biggest Party Cool Aid Drinker of all?? Someone still totally intoxicated by liberal Democrats and their deadly brew. You failed all Americans Senator McCain. You failed TRUTH. You failed to give us the TRUTH. The very standard of good government.

And now Barrak Hussein Obama, President of the United States, will stand before the Joint House of Representatives tonight on National Television -- and tell all Americans -- what is about to happen to us when the government becomes the very master of our health and welfare.

And once again --- millions of Americans -- and the main stream media will be completely deceived by the Master of deceit. Barack Hussein Obama.

But some Americans have discovered their Patriotism -- and are beginning to stand up. They will need our help. Freedom is in our hands now. Not our military. It is our turn to fight for the cause of freedom. And fight we must.
